WOMAN'S HOSPITAL

IN THE

STATE OF NEW YORK

Ninetieth Annual Report

FOR THE

YEAR ENDING

DECEMBER 31st, 1945

HOSPITAL SITUATED ON 109th AND 110th STREETS
BETWEEN AMSTERDAM AND COLUMBUS AVENUES
NEW YORK CITY

PAST

The WOMAN'S HOSPITAL was established on May 4, 1855 in a building at Madison Ave. and 29th Street 1855-1867.

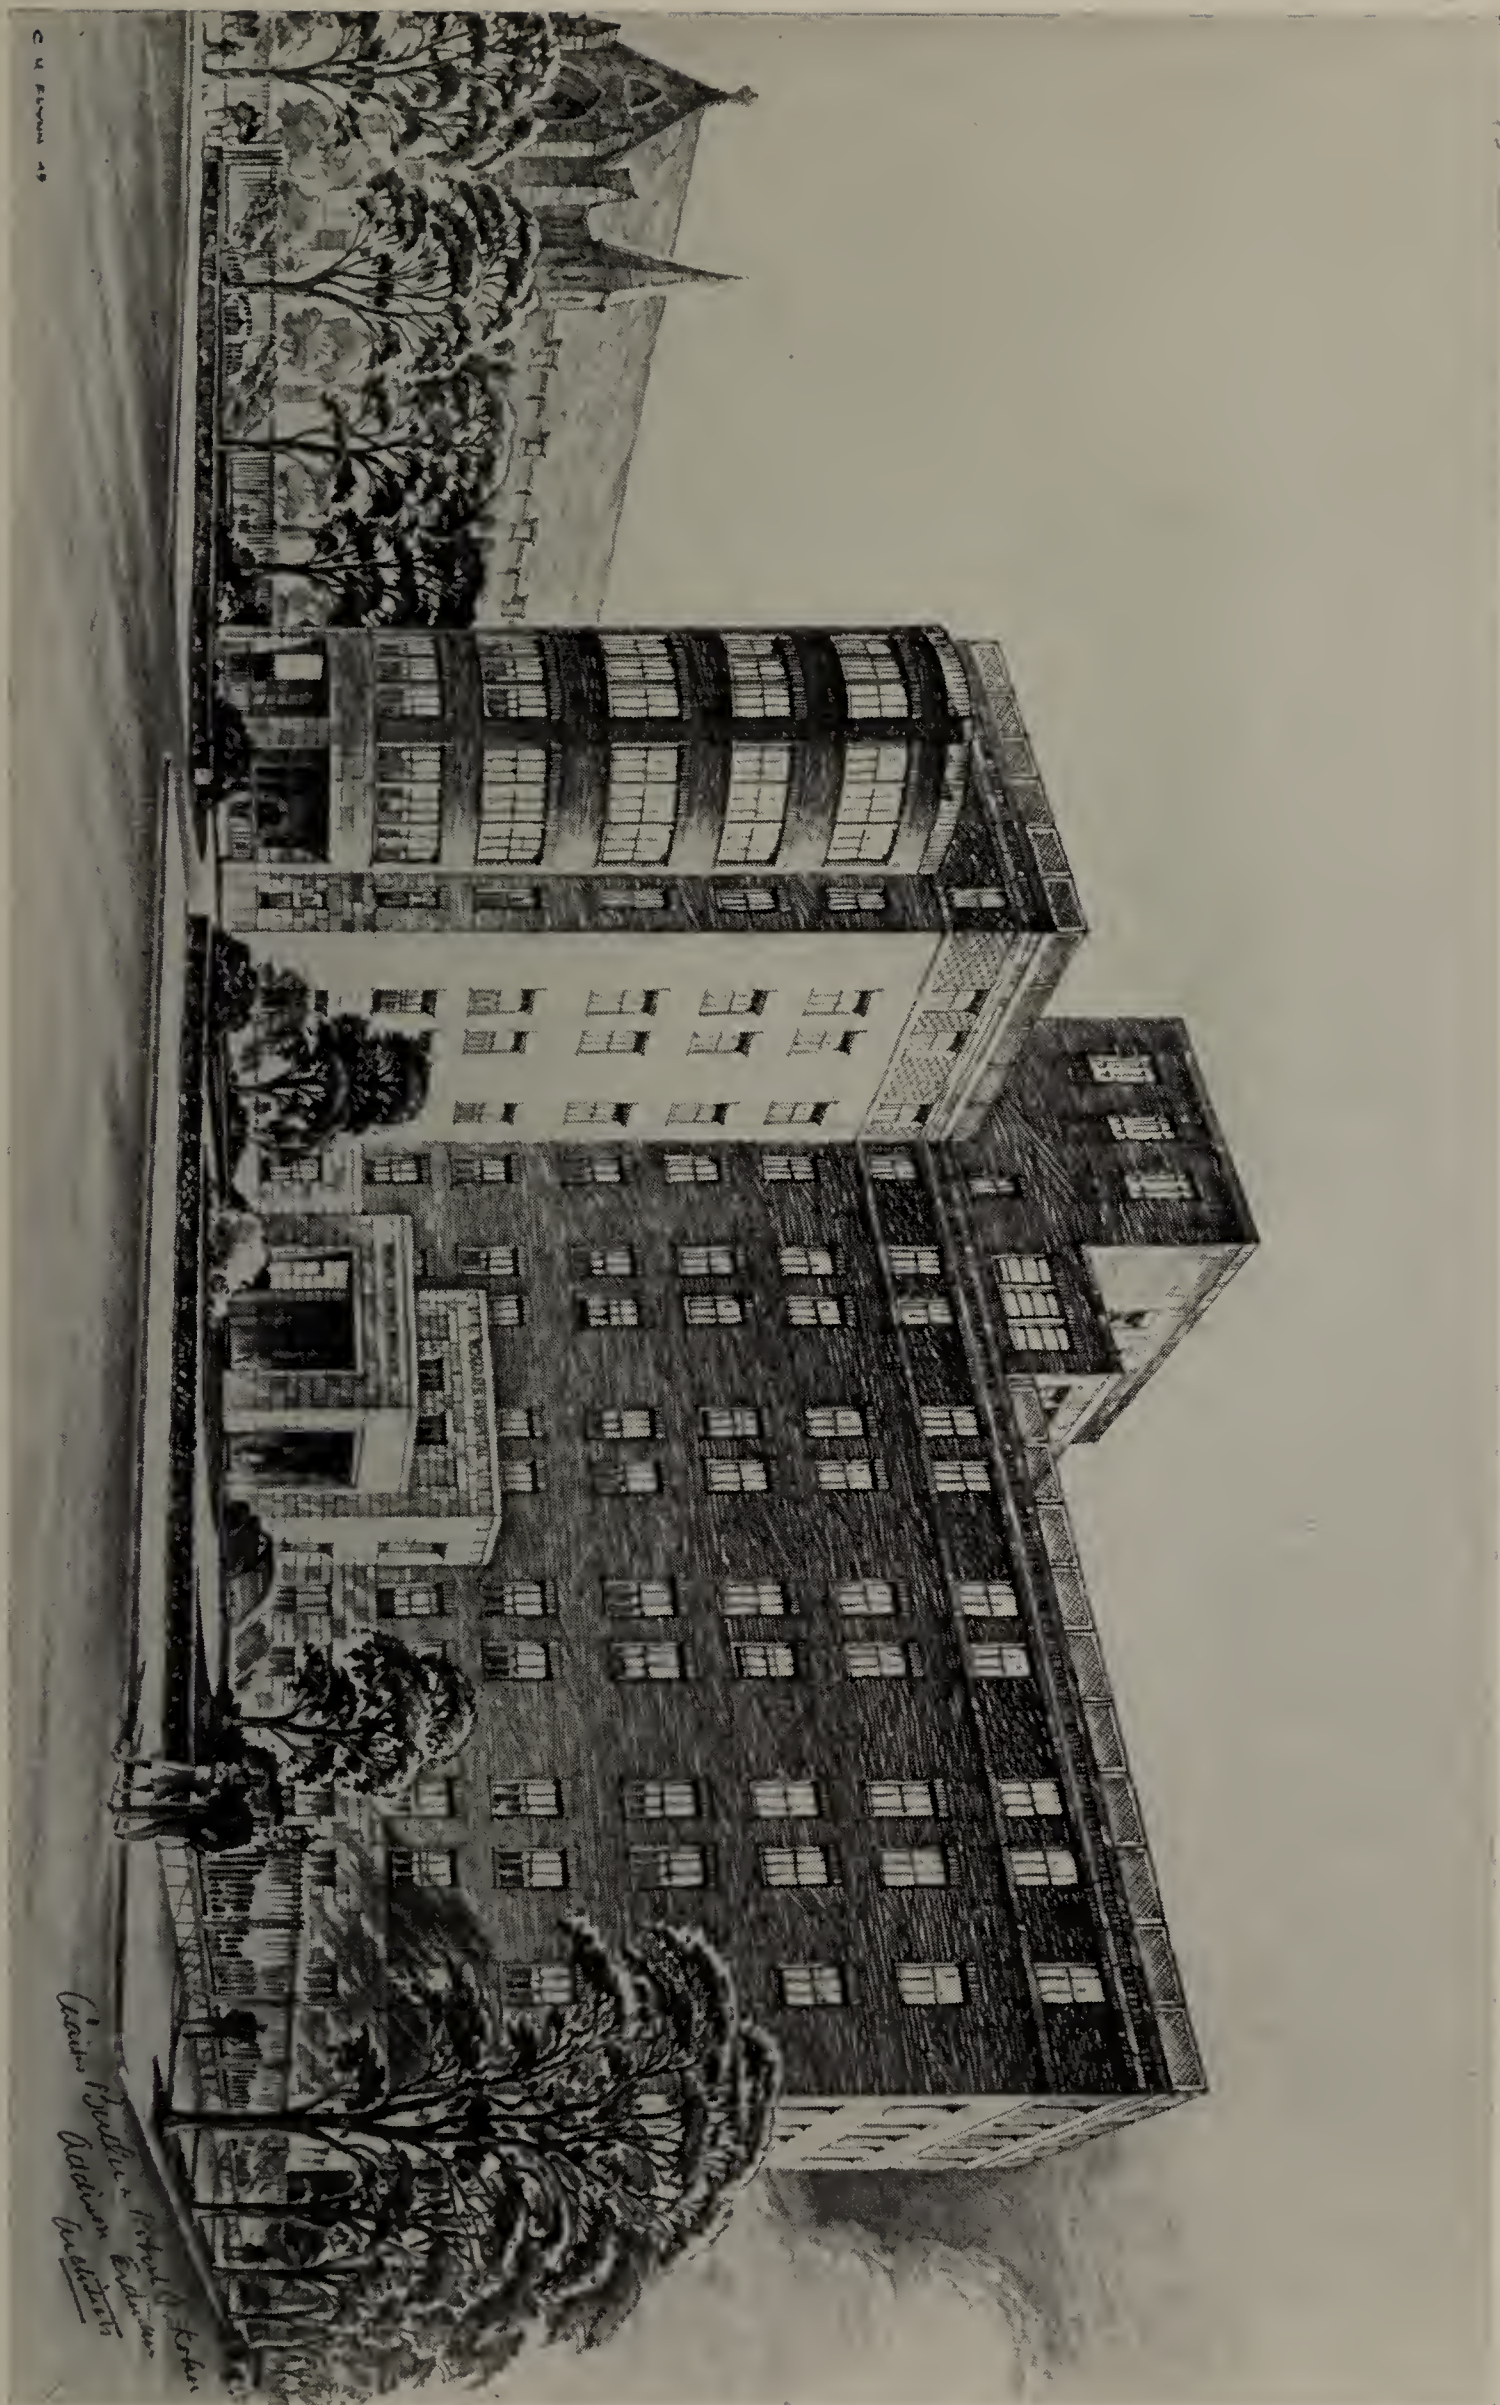

WOMAN'S HOSPITAL 1867-1902

PRESENT

WOMAN'S HOSPITAL 1906-

PROPOSED ADDITION TO WOMAN'S HOSPITAL

WOMAN'S HOSPITAL LOOKS TO THE FUTURE

For ninety years the Woman's Hospital in the State of New York has rendered notable service to women by extending their lives and restoring them to health and happiness.

Since its founding, nearly 640,000 women have passed through the doors of this institution, the birthplace of modern gynecology. Since the present hospital building was occupied in 1906 there has been an increasing number of patients treated. During the 1935-45 period the annual number of patients operated upon increased from 1,571 to 2,218 and the annual number of babies born increased from 1,412 to 2,299. During this time the ward service has maintained a large and even census, increasing from 3,062 patients in 1935 to 3,130 patients in 1945. The increase in semi-private and private patients during this eleven year span has been remarkable, showing a gradual increment from 1,941 private and semi-private patients in 1935 to 3,974 patients in these accommodations in 1945; and this is not a complete picture, for rooms are booked for obstetrical and gynecological patients far in advance. Advance obstetrical bookings have averaged 1,101 for the past three years and in December, 1945 there were 1,162. For the past several years, bookings for expected deliveries seven months ahead have been entirely reserved in a matter of days after the advance bookings for that particular month have been opened. There is always a long waiting list of hopefuls who anxiously await cancellations, but most of these hopeful mothers-to-be, unfortunately, are disappointed because accommodations do not become available.

The ward service of Woman's Hospital has been an important part of its service to the community, being primarily for women who either require completely free care or who are able to pay only part of the cost of their hospital care. The policy of admitting patients to the wards will continue unchanged in the future and it will be hospital practice to furnish the best care available to ward patients who are unable to pay the full cost of the treatment they receive.

The great increase in private and semi-private patients treated at Woman's Hospital, as contrasted to the rather even ward service of the past eleven years, is a reflection of the times. Some of the increase is the result of higher incomes, but the greatest proportion of this trend is a result of the improving condition of the middle income family. It has frequently been said that the poor and the rich in New York City are well provided with hospital facilities. The large middle income group has until recently found the cost of medical and hospital care embarrassing.

During the past ten years many women, who may be self-supporting business women, or married women living closely on a limited family budget, have found support through membership in the Associated Hospital Service Plan. Whereas a few years ago many of these patients found it necessary to enter the hospital as a free or part-pay patient, they can now, because of the plan membership, afford a semi-private or an inexpensive private accommodation. Today, approximately 25% of the total population of New York City have plan membership and 45% of these members are women. The growth of this plan has been dramatic in recent years and all indications point towards an increasing membership.

The experience of Woman's Hospital during the past eleven years is, therefore, not a transitory one. It is an illustration of the trend which points towards the type of care which will be rendered to the people in the future.

Although the present hospital building has served the community well for forty years, during which time but few major alterations have been made, the Board of Governors now wish to modernize as well as to expand. New delivery and operating suites are needed to conform with the latest standards set by the American College of Surgeons. The laboratory, x-ray department and dietary departments require renovation. The power plant, electrical installations, plumbing fixtures and steam lines must be renewed. The laundry must be modernized and enlarged. It is the desire of the Board of Governors of Woman's Hospital to provide a hospital for the practice of

obstetrics and gynecology which will continue to set the standard for these specialties.

The Hospital now provides the following accommodations :

	<i>Obstetrics</i>	<i>Gynecology</i>	<i>Total</i>
Ward	42 beds	70 beds	112 beds
Semi-private	19 beds	14 beds	33 beds
Private	32 beds	26 beds	58 beds
Recovery, Isolation and Labor Rooms			17 beds
			<hr/>
Total			220 beds
Bassinets			100

The proposed bed capacity, excluding recovery, labor and isolation rooms :

	<i>Obstetrics</i>	<i>Gynecology</i>	<i>Total</i>
Ward	42 beds	70 beds	112 beds
Semi-private	60 beds	46 beds	106 beds
Private	63 beds	46 beds	109 beds
			<hr/>
Total			327 beds
Bassinets			180

Woman's Hospital Needs Your Support

—FOR—

1. A \$3,000,000 Expansion and Modernization Program
2. General Operating Expenses

SUGGESTIONS FOR DONORS

I hereby give to the "WOMAN'S HOSPITAL IN THE
STATE OF NEW YORK" incorporated by an Act of Legisla-
ture, passed April 18th, 1857, the sum of
Dollars to be applied to the expansion and modernization program.

I hereby give to the "WOMAN'S HOSPITAL IN THE
STATE OF NEW YORK" incorporated by an Act of Legisla-
ture, passed April 18th, 1857, the sum of
Dollars to be applied to its general operating expenses.

FORM OF BEQUEST

I give and bequeath to the "WOMAN'S HOSPITAL IN THE STATE OF NEW YORK," incorporated by an Act of the Legislature passed April 18th, 1857, the sum of to be applied to the uses and purposes of the said Corporation.

NOTE: For terms and conditions under which beds may be endowed see Article 31 of the By-Laws, copy of which will be sent upon request.

LUKE VINCENT LOCKWOOD
PRESIDENT OF THE BOARD OF GOVERNORS 1941-1946
[18]

NINETIETH ANNUAL REPORT OF THE BOARD OF GOVERNORS OF THE WOMAN'S HOSPITAL

The Board of Governors of the Woman's Hospital in the State of New York presents the following reports from the several departments of the Hospital for the year ending December 31, 1945.

During the year 3,130 ward patients received a total of 35,883 days care in the Hospital. The cost of this service amounted to \$301,198.03 while we received from these patients, able to contribute something towards the cost of their care, a total of \$139,882.36; therefore 54% of this service was free.

In the Out-Patient Department 6,417 patients made a total of 31,222 visits to the Clinics. \$24,846.63 in fees were collected, whereas the cost of rendering this service was \$52,552.52. Therefore, 55% of this service was free.

The Social Service Department cared for 2,544 cases and the care of 134 convalescent patients was arranged with various homes for that purpose.

The net cost of the charitable activities of the Hospital for the year amounted to \$198,563.91.

The total current receipts from patients, donations and income from investments amounted to \$702,633.00 and the total current expenses to \$795,487.59 with a resultant excess of current expenses over current revenue of \$92,854.59.

The following changes have occurred in the membership of the Board of Governors during the past year: Mr. William E. S. Griswold resigned in November 1945 after serving on the Board for twenty-five years, during which time he was a member of the Executive Committee and Chairman of the Committee on Finance; Mrs. Walbridge S. Taft was elected Vice-President in November 1945; Mrs. Hunter S. Marston was appointed a member of the Board of Governors in November 1945; Mrs. Douglas L. Elliman was elected to the Board of Governors in February 1946.

On December 1, 1945, Mr. James U. Norris resigned as Superintendent of the Hospital after twenty-six years of service and Dr. Karl S. Klicka was elected Director.

The Hospital has a contract for the purchase of the property belonging to the National Academy of Design which faces Amsterdam Avenue, running from 109th to 110th Streets and adjoins our property, and it is hoped that before long an addition to the Hospital can be placed upon said land.

We wish to express our thanks and appreciation during a trying year for the loyalty of our Staff, Superintendent and Employees, which has helped materially in enabling us to function efficiently.

The Board acknowledges with thanks the many donations received during the year. The volunteers, made up as follows: Nurses' Aides, Ward Aides, Out-patient Department, Central Supply Room, Gray Ladies, American Women's Hospital Reserve Corps and Library, have all done splendid and unselfish work, amounting in all to 26,000 hours. It would be difficult to know how the Hospital could have functioned without their help and we are very grateful to them.

LUKE VINCENT LOCKWOOD, *President.*

REPORT OF THE DIRECTOR

TO THE BOARD OF GOVERNORS:

Ladies and Gentlemen:

I have the honor of presenting the Report of the Director for the year 1945:

Number of Patients Treated:

	<i>Gynecological</i>	<i>Obstetrical</i>		<i>Total</i>
		<i>Women</i>	<i>Infants</i>	
Ward	968	1,175	987	3,130
Semi-Private	444	626	579	1,649
Private	678	839	808	2,325
<hr/>				
TOTAL	2,090	2,640	2,374	7,104

Patient Days Care:

Ward	13,686	11,440	10,757	35,883
Semi-Private	5,324	6,183	6,197	17,704
Private	8,217	9,082	9,306	26,605
<hr/>				
TOTAL	27,227	26,705	26,260	80,192

In addition, 5 of the Personnel received 22 days of care.

Out-Patient Department:

Total Patients treated	6,417
Total Visits	31,222

Births totaled 2,337, the greatest number ever to occur in Woman's Hospital.

Hospital expenses increased markedly during the year. Increased costs were experienced in all phases of the hospital operations, but higher wages reflected the greatest increments. Current revenue for 1945 totaled \$708,739.55 and current expenses totaled \$801,594.14 with an excess of current expenses over current revenue of \$92,854.59.

Average per capita costs for the year were as follows:

Private Adults per day	\$13.01
Semi-Private Adults per day	12.93
Ward Adults per day	11.98
Infants per day	2.31
Average overall cost per day (excluding nursery).....	12.51
Out-Patients per visit	1.62

During the year an impressive number of repairs and replacements were accomplished:

REPORT OF THE DIRECTOR

A fan was installed to ventilate the boiler room.

Vault lights were installed in the boiler and engine rooms.

The outside balconies of the hospital were painted.

A coffee shop was installed by the Assistant Board.

New refrigerating rooms were installed in the main kitchen.

General roofing repairs, including new gutters and drains, were accomplished.

Major switchboard repairs were made.

A large number of plumbing alterations and improvements were made.

A new panel board was installed in the basement to accommodate alternating current.

A steam cooker was installed in the main kitchen.

The walls of the boilers were relined.

A large ice-making plant for the manufacture of bulk ice was installed in the basement.

Worn boiler tubes were replaced.

The total cost to the hospital of these repairs and replacements amounted to \$26,000.00.

Mrs. Taft and the Library Committee continued to render a valuable service to the patients during the year. They gave a total of 2,024 hours, during which time 11,192 books and magazines were loaned to patients and personnel.

I wish to express my appreciation to the personnel of Woman's Hospital for their generous assistance and coöperation since I took the office of Director on December 1, 1945.

Respectfully submitted,

KARL S. KLICKA, M.D.,

Director.

2,337 BABIES WERE BORN IN THE WOMAN'S HOSPITAL DURING 1945

REPORT OF THE CHIEF SURGEON

TO THE BOARD OF GOVERNORS:

Ladies and Gentlemen:

I have the honor of presenting the Annual Report of the Surgical Department for the year 1945.

During the year, 2,090 patients were treated on the ward and private gynecological services. Two thousand two hundred and seventeen patients were operated upon.

Two thousand three hundred and thirty-seven ward and private patients were delivered.

One hundred and forty-one patients were treated with radium, bringing the total number of patients treated since radium was made available in 1919 to 4,726.

Six thousand four hundred and seventeen patients made 31,222 visits to our Out-Patient Department for examinations and treatments.

In our Pathological Department 46,355 clinical and surgical pathological examinations were made.

Of the patients referred to our Roentgenological Department, 1,031 were for diagnosis and 188 were for treatment. In the department, 3,542 diagnostic and therapeutic procedures were carried out.

The Staff of our Anesthesia Department administered 4,158 anesthetics to our gynecological and obstetrical patients.

Through the personnel in charge of our Special Clinics, many Out-Patient Department and ward patients have had the benefit of expert advice as to diagnosis and treatment. Work in the Special Clinics may be summarized as follows:

	<i>New Cases</i>	<i>Total Visits</i>
Urology	138	865
Gastroenterology	44	175
Orthopedics	95	617
Endocrinology	100	1,483

Ninety-one babies were brought back for 198 visits to the Pediatric Follow-up Clinics. In this number was included only babies in whom unusual physical conditions had been noted after birth or babies that had had problems as to feeding. As in the past, obstetrical patients who had normal infants, were encouraged to take advantage of the pediatric advice provided by the Department of Health Baby Clinics. Our Pediatric Staff has supervised the care and feeding of all newborn infants and has conducted our Pediatric Follow-up Clinics.

Work in our Record Department has been handicapped by numerous changes in personnel. Miss Bernadette Hanna, Director of the Record Department, deserves great credit for her efforts to keep the completion and filing of charts up to date. During the year, 17,706 clinical charts and abstracts were consulted for data regarding patients under treatment

REPORT OF THE CHIEF SURGEON

or for use in making research studies. As usual, end results of all treatments of our patients during the year will be audited by Merwin Davis.

Four Follow-up Clinics are conducted every week. Members of the Attending and Resident Staffs in charge of patients who are treated, operated upon or delivered in the hospital wards, attend these clinics to observe the results of their work.

During 1945, 1,873 patients made 3,761 visits to our Gynecological Follow-up Clinics and 658 patients who had been delivered made 980 visits to our Obstetrical Follow-up Clinics.

We are indebted to Miss Edna Witham, the Director of Nurses, for her success in meeting many problems arising from the continued shortage of nurses. Through the combined efforts of a much reduced nursing staff and a faithful group of volunteer aids, essential nursing care for our patients has been provided.

Results of the work in the various hospital departments are reviewed at Staff Conferences which are held twice per month.

On December 6, 1945, the Staff of the Woman's Hospital held an operative clinic for the Brooklyn Travel Club. The clinic was well attended and the increasing interest which physicians manifest in this type of post-graduate instruction is most gratifying.

During the past few months, many members of our Attending Staff have resumed their hospital duties after having been released from the Armed Services, and the number of residents has been increased from eight to eleven. This increase in personnel has resulted in a welcome relief from the burden of work being carried by both the Attending and Resident Staffs. Following their release from the service, seven residents: Doctors LeRoy Sadler, Louis O. Frederick, Paul Watson, John T. Armstrong, Robert P. McDonald, Michael Rapp and Steward H. Smith, have returned to complete their training or to take refresher work before starting practice.

Changes occurring in our Surgical Staff during 1945 are:

Dr. William W. Herrick, Consultant in Medicine, deceased.

Dr. Henry G. Bugbee, Consultant in Urology, deceased.

Appointments:

Dr. Van P. Latsey, Clinical Assistant.

Dr. Elise Renning, Clinical Assistant.

Resignation:

Dr. Charles Gordon Heyd, Consultant in Medicine.

Upon satisfactory completion of their services, the following members of the Resident Staff were granted diplomas:

Dr. Elise Renning, Dr. Van P. Latsey, Dr. Gwendolen G. Auxier and Dr. Frances C. Schaeffer.

REPORT OF THE CHIEF SURGEON

RESEARCH AND SCIENTIFIC CONTRIBUTIONS

Dr. Aldridge :

“An Evaluation of Methods of Treatment of Urinary Incontinence.”
Published in the *American Journal of Obstetrics and Gynecology*,
March, 1946. Vol. 51, No. 3, pp. 299-315.

Dr. G. G. Ward :

Lectures to the Resident Staff of Woman's Hospital.

Dr. Barrett :

“Placenta Praevia and Premature Separation of a Normally Situated Placenta.” Published in *Medical Clinics of North America*, Vol. IV, No. 3. October, 1945. Also published in “Management in Obstetric Complications,” pp. 178-225.

“Hemorrhage in Viable Period of Pregnancy.” Read at the Academy of Medicine, Section of Obstetrics and Gynecology, December 21, 1945. (To be published.)

Dr. Kennedy :

Lecture to Staff of Booth Memorial Hospital, May 23, 1945, “Muscle of Micturition.”

“Incontinence of Urine in the Female—Muscle of Micturition and Its Rôle in the Sphincter Mechanism.” Paper read at the Obstetrical Society Dinner, May 8, 1945.

“Relation of Obstetrics to Gynecological Lesions.” Read at a regular meeting of The Medical Society of the County of Ulster, June 6, 1945.

“Incontinence of Urine in the Female with Special Reference to Anatomical and End Results in One Hundred Cases.” Read at the first meeting after the war of the Southern Medical Association, Cincinnati, Ohio, November 15, 1945. Operation for Incontinence performed at this meeting.

Dr. Davies :

“Urinary Stress Incontinence.” Guest speaker at the Chicago Urological Society Meeting, April 15, 1945.

Dr. Nathanson :

Lectures given as part of a Refresher Course for returned veterans at the Bronx Hospital :

“Interpretation of Gynecological Symptoms.”

“Office Gynecology.”

Paper read at a Staff Conference of the Woman's Hospital, “Evaluation of Penicillin in Obstetric and Gynecologic Practice.”

REPORT OF THE CHIEF SURGEON

Dr. Stohr :

"Primary Amenorrhea," Case report from the Endocrine Clinic of Woman's Hospital. To be published in the *Journal for Clinical Endocrinology*.

I welcome this opportunity to convey to the Board of Governors the appreciation of the Surgical Staff for its generosity in helping us to maintain a high standard of efficiency in the care of our patients.

I am grateful to the Director and his Staff and the Nursing Department for their continued assistance and coöperation.

It also gives me pleasure to acknowledge the generous and kind coöperation which I have received from every member of the Surgical Staff and especially from members of the Surgical Board.

Respectfully submitted,

ALBERT H. ALDRIDGE,
Chief Surgeon.

121 PREMATURE BABIES WERE CARED FOR IN THE SIX INCUBATORS IN THE
PREMATURE NURSERY

REPORT OF THE NURSING DEPARTMENT

TO THE BOARD OF GOVERNORS:

Ladies and Gentlemen:

I hereby submit the following report of the Nursing Department for the year ending December 31, 1945.

The over-all nursing service picture for the past year has been one of constant turnover with no particular improvement as to the quantity of personnel available. According to our experience and to authorities in the nursing and allied fields the underlying causes are as follows: (1) A large part of honorably discharged nurses in the Army and Navy Nurse Corps are enrolled or have plans for full-time enrollment in colleges and universities as allowed by the G.I. Bill of Rights. (2) Many nurses, home from overseas, are turning their backs upon the nursing profession whose salaries, working conditions and benefits, etc., are not commensurate, in many instances, with those of industry. (3) A larger number of Army and Navy nurses, than was first estimated, have returned home to pursue their careers as housewives and mothers. (4) There has been an alarming increase in the rate of resignations among the standbys of the war, that is, the nurses with husbands and families and nurses who by virtue of advanced age or poor health would ordinarily not be working. Not all, but many of these people, discouraged by the present nursing outlook, cannot be prevailed upon to continue to carry their positions until released by the small number of returning regulars.

Unfortunately from the standpoint of the nursing service, V-E Day and the ensuing summer months saw the beginning of a wane in attendance of volunteer personnel, nor was this improved in the Fall in view of our victory over Japan. In January 1945, volunteer personnel gave 3,302 $\frac{1}{4}$ hours as compared to 1,113 $\frac{3}{4}$ hours in December 1945.

As to quality of new personnel employed, it can be said that there is beginning to be a trend toward improvement. More people who apply for positions are better qualified in both preparation and experience and therefore are more valuable from the standpoint of the degree to which they are able to assume responsibility for the more complicated nursing technics. A very few of these people have been veterans, one or two of whom were originally on the staff at Woman's Hospital. It is interesting to note, that by the end of December 1945 and covering the period from January 1945 we were only seven registered nurses ahead; there were 43 resignations in this group against 50 appointees, of which in each group some were part time.

On May 16, 1945, in recognition of the mounting salaries on all sides and the need for making adjustments in the salaries of nursing personnel employed or to be employed, the Executive Committee of the Board of Governors authorized throughout the department a more or less general increment of \$5. In the case of registered nurses not on a maintenance

REPORT OF THE NURSING DEPARTMENT

basis, the room allowance was raised from \$5-\$15, depending on the professional status of the nurse.

There were a number of changes in key positions. Miss Sara Dickson, Head Nurse in the Formula Room, resigned early in the year and was succeeded by Mrs. Agnes Layman. Mrs. Agnes Layman resigned in the Fall and was succeeded by Miss Genevieve O'Donnell. Mrs. Emma Luhrs, Head Nurse on Ward D, resigned and has not been replaced. Miss Lilla Mews, Head Nurse in the A East Nursery, was exchanged with Miss Esther Aronowitz, Head Nurse in the Out-Patient Department. Miss Jean Weismiller, Supervisor of the Out-Patient Department, resigned and Miss Lilla Mews was temporarily placed in charge. Miss Susan Thomas, Head Nurse on Ward B, resigned and was succeeded by Miss Lucille Lemons.

On May 11, 1945, Miss Valentine of the New York State Board of Examiners of Nurses visited the hospital accompanied by Mrs. Evelyn Stromberg, Director of the Ballard School for Practical Nurses at the Y.W.C.A. and Mrs. Bernice Huffman, Principal of the practical nurse school at the Hospital for Joint Diseases. The purpose of the visit was to meet the Head Nurses and Supervisors engaged in teaching and supervision in the pupil practical nurse course already established and the further inspection of their credentials preparatory to the opening of an affiliation in 1946 for the pupil practical nurses of the Hospital for Joint Diseases. The physical facilities of the hospital came under examination as well as the other aspects. The report on the visit as made by Miss Valentine was, in general, favorable.

The Nursing Department owes a debt of gratitude to Mrs. MacMurchie, recently appointed Executive Housekeeper, through whose suggestion and coöperation it was possible to reclassify the work of the overburdened ward maids and to transfer housekeeping duties performed by them to the Housekeeping Department.

The shortage in supplies and equipment persisted throughout the year to lessen somewhat only in the latter weeks.

A major improvement effected in October was the installation of a scrub stand in the East Nursery on the fifth floor. This has proved to be a great saving in nursing steps and consequently, in nursing time. A new sterile water urn has facilitated the work in the Formula Room. The revision and printing of routines to be followed by nurses in the Observation and Isolation Nurseries has been of a great advantage to them.

It has been gratifying to note the increased enrollment in Mothers' classes for the clinic ante-partum patients. Credit for this goes to Miss Lilla Mews, acting Supervisor of the Out-Patient Department. Her background, interest in the subject, and enthusiasm are largely responsible.

The new Daily Nursing Assignment Sheet, drawn up with suggestions from the Supervisory and Head Nurse Staffs has come up to

REPORT OF THE NURSING DEPARTMENT

expectations since it was put into practice. Its extra space allows for more specific instruction as to nurses' assignments throughout the day and hence tends to minimize error. Inclusion of a column for hours of duty obviates a duplicate time slip to be made out by each floor.

We were proud to be sought out for advice as experts in Gynecological Nursing by Miss LaVerne Wolff, Assistant Test Editor on the Committee on Measurement and Educational Guidance of the National League of Nursing Education. This committee with its office on the campus of Columbia University has not only been working closely with the Department of Nursing Education at Teachers' College, but also has been attempting to set up valid achievement examinations in every clinical area in the undergraduate curriculum. Miss Jean Hall, Assistant Director of Nursing and Mrs. Blanche Noell, Supervisor of Private "L," were selected to participate in discussions with Miss Wolff.

Thanks are due again this year to Mrs. Andrew Carnegie for the box for the Peoples Chorus in the Christmas Festival. The Teas given by the Assistant Board were a happy means of relaxation and enjoyment to the entire staff.

Mrs. Walbridge S. Taft, Chairman of the Nursing Committee, was this year, as in the past, loyal friend and counselor to the Nursing Department. Her interest in the professional and general welfare of the nurses cause her to be regarded by them with trust and affection.

I am pleased to acknowledge the interest of the Chief Surgeon, Dr. Albert H. Aldridge, in promoting a larger and better qualified nursing staff and also to thank him for his support in our desire to raise salary standards.

It was with regret that our association with Mr. James U. Norris, past Superintendent of the hospital, came to an end as he seemed always coöperative to the interests of the Nursing Department. However, in Dr. Karl S. Klicka, his successor, we have already found wholehearted support and inspiration and I wish, therefore, to express my appreciation to him.

To my Assistants, and to all other members of the Nursing Department, I wish to extend my gratitude for their devotion to duty during such difficult times.

Respectfully submitted,

EDNA N. WITHAM,

Director of Nursing.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

I have the honor to submit the annual report of the Social Service Department.

Personnel shortage has remained our most acute problem with the workers who carried on after Mrs. Schaefer's resignation being greatly overburdened. Mrs. Schaefer moved to California in October and in her going the Hospital lost a devoted friend.

In 1945, our Social Service staff held 1,616 telephone conferences with social service agencies and 141 interviews with workers who came to the hospital to consult with us. We made 17 calls at agency offices and represented the Hospital on committees studying urgent patient

needs. Fifty-eight patients were visited at home and 436 telephone calls were received from patients and their families. As in our work with agencies, we have had to make the telephone save letters and visits as much as possible. Our doctors were consulted 315 times about patients, exclusive of telephone contacts. In all, the total of 7,764 interviews show case work activities exclusive of interviews with ministers, doctors, teachers, and lawyers who consulted us for medical social purposes. Routine bedside interviews and referrals to infant welfare clinics as is now our custom, are not included in these figures.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

In no field of social work is the management of people's lives arranged for them. No one can receive the fullest help who is not ready for it. All who come to us require freedom of self-determination and their ability to accept and use what is offered is often limited by cultural factors and educational deficiencies.

A statement of the division of responsibility within the Social Service Department might be of interest here. Normally, there are three workers, one covering the maternity service from the time that the mother registers in the Clinic until she returns for her post-partum examination. One full-time surgical worker who interviews all patients being admitted for care and follows them through their recovery until discharge or transfer to convalescent home if indicated. The third worker, the Director, shares the overload from the two services, particularly on surgery and carries the administrative responsibilities of the Department. One office assistant acts as receptionist, file clerk and secretary.

Under this plan in which every patient reviews her situation with a worker, the demands upon the worker's social diagnostic skills are heavy. We see all types and kinds of people early and late in discouraging illnesses or family crises; they need our understanding and acceptance as well as the privilege of saying they do not need or wish our help. Out of this large number there is always a small group of patients who need medical social care above everything else and intensive service is offered to them, often over a long interval of time. Obviously, two workers doing intensive work of this order must use a fine discrimination in accepting assignments, often with the need of outside referral of patients who are emotionally secure enough to accept a new worker.

This year, much time has been given to working out satisfactory plans for adoption, as the requests for babies have increased in our hospital as elsewhere. A study of this vexing question was carried out with the director, resulting in an important new procedure being formulated. In making this plan, our excellent relationship with agencies in this field was a great source of satisfaction to us all. Many babies have been placed through coöperating agencies. In order to have this go smoothly, it is our custom to have the plan made for the mother before her registration in the Clinic. However, while problems concerning unmarried parenthood have been large, the increase in cases in which marital friction in families reestablished since V-J Day, has been great. Couples have needed to get acquainted again and with the coming of a child or the need for an operation for wife or mother, they are often overwhelmed with emotional stress. Many fathers, husbands, and sons have inwardly resented home responsibilities after having had all-inclusive Government care.

A study of department functions was also carried out this year with resulting improvement in interpersonnel relationships in the hospital. We all need to be articulate in expressing mutual needs from one another and we have found this year, that much has been accomplished in this respect.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

Sustaining service to cancer patients has continued to make heavy demands upon the surgical worker. Many examples of high courage and family loyalties have been encountered with this group and they are one of the most rewarding which we see in daily work. At Christmas, the Social Service Committee distributed plants and gifts to those who were home bound.

Our friends have remembered us generously with donations of clothing, infant furniture and a baby carriage, among others. The Baird Fund has again enabled us to meet emergency needs of young mothers and infants who would otherwise have had insufficient clothing. The Red Cross has sent the usual fine layettes when needed.

We would like to particularly acknowledge the continued understanding and support of the Social Service Committee during this difficult year. The interest and understanding of the Hospital Director who has had much to learn of us and our ways has been cheering and stimulating. We wish to thank all members of our hospital family for their patience and understanding throughout trying times. However, we feel that our mutual adversities have drawn us closer together in fellowship and that the coming year should offer better and wider opportunities for us all in richer relationships.

Respectfully submitted,

JANET S. HAGUE.

6,417 PATIENTS MADE 31,222 VISITS TO THE OUT-PATIENT DEPARTMENT DURING 1945

LIBRARY REPORT

Six volunteers gave a total of 2,024 hours to the library during the past year. Continued appreciation from the patients makes this work seem increasingly worth while.

The circulation was 11,192 with 6,509 patients and 1,843 members of the staff served with books and magazines.

Books we were unable to use were sent to the Conrad Library of the Seamen's Church Institute, where they will continue to serve a useful purpose.

Respectfully submitted,

ELIZABETH C. TAFT,

Chairman, Library Committee.

LIBRARY SERVICE

REPORT OF THE TREASURER

COMPARATIVE STATEMENT OF EXPENSES AND REVENUE FOR YEARS ENDING DECEMBER 31, 1945 AND 1944

	<i>1945</i>	<i>1944</i>

REPORT OF THE TREASURER

PURPOSES FOR WHICH INCOME OR PRINCIPAL OF RESERVE FUNDS IS USED

The income from investments held in the *Endowed Bed Fund*, *General Endowment Fund*, *Bella Cooke Trust Fund*, *Abby Sherwood Jesup Fund*, *Maria DeWitt Jesup Fund*, *Russell and Margaret Olivia Sage Memorial Fund*, *Mary Clark Thompson Fund*, *Henry D. Brookman Fund*, *Endowed Room for Nurses Fund*, *Elizabeth Colgate Maghee Fund* and *Grenville Lindall Winthrop Fund* is used to meet the current expenses of the Hospital.

Patients' Relief Fund is used to meet the cost of supplies or relief furnished to needy patients.

Henrietta Smith Periodical Fund is used to provide periodicals for the wards of the Hospital.

Cheer Fund is used to provide cheer for patients, staff, nurses and employees.

Transfusion Fund is used to provide blood transfusions to needy patients.

J. Marion Sims Research Fund is used for research work in the Hospital.

Babies' Alumni Fund provides free care for deserving mothers and babies in the Maternity Ward.

Mr. and Mrs. Robert Brundrett Fund is used to provide free care for needy maternity cases.

J. Riddle Goffe Research Fund is used for research work in the laboratory of the Hospital.

J. Riddle Goffe Medical Book Fund is used for purchase of books and periodicals.

Maud Aguilar Leland Fund is used for blood transfusions for needy patients or for scientific research.

Amalia F. Morse Fund to be used for the benefit of the indigent and underprivileged.

Ralph L. Barrett Fund to be used for the purchase of apparatus and supplies as approved by Dr. R. L. Barrett and the Executive Committee.

Social Service Fund.
